WOMAN'S HOSPITAL

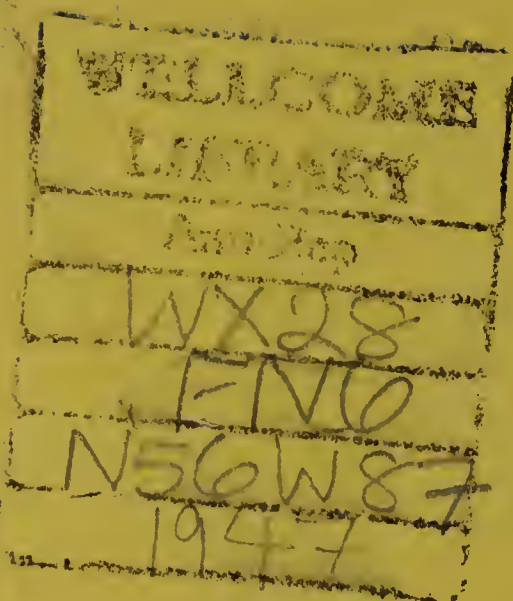

IN THE

STATE OF NEW YORK

Ninety-Second Annual Report

FOR THE

YEAR ENDING

DECEMBER 31st, 1947

HOSPITAL SITUATED ON 109th AND 110th STREETS
BETWEEN AMSTERDAM AND COLUMBUS AVENUES
NEW YORK CITY

PRESENT

WOMAN'S HOSPITAL 1906-

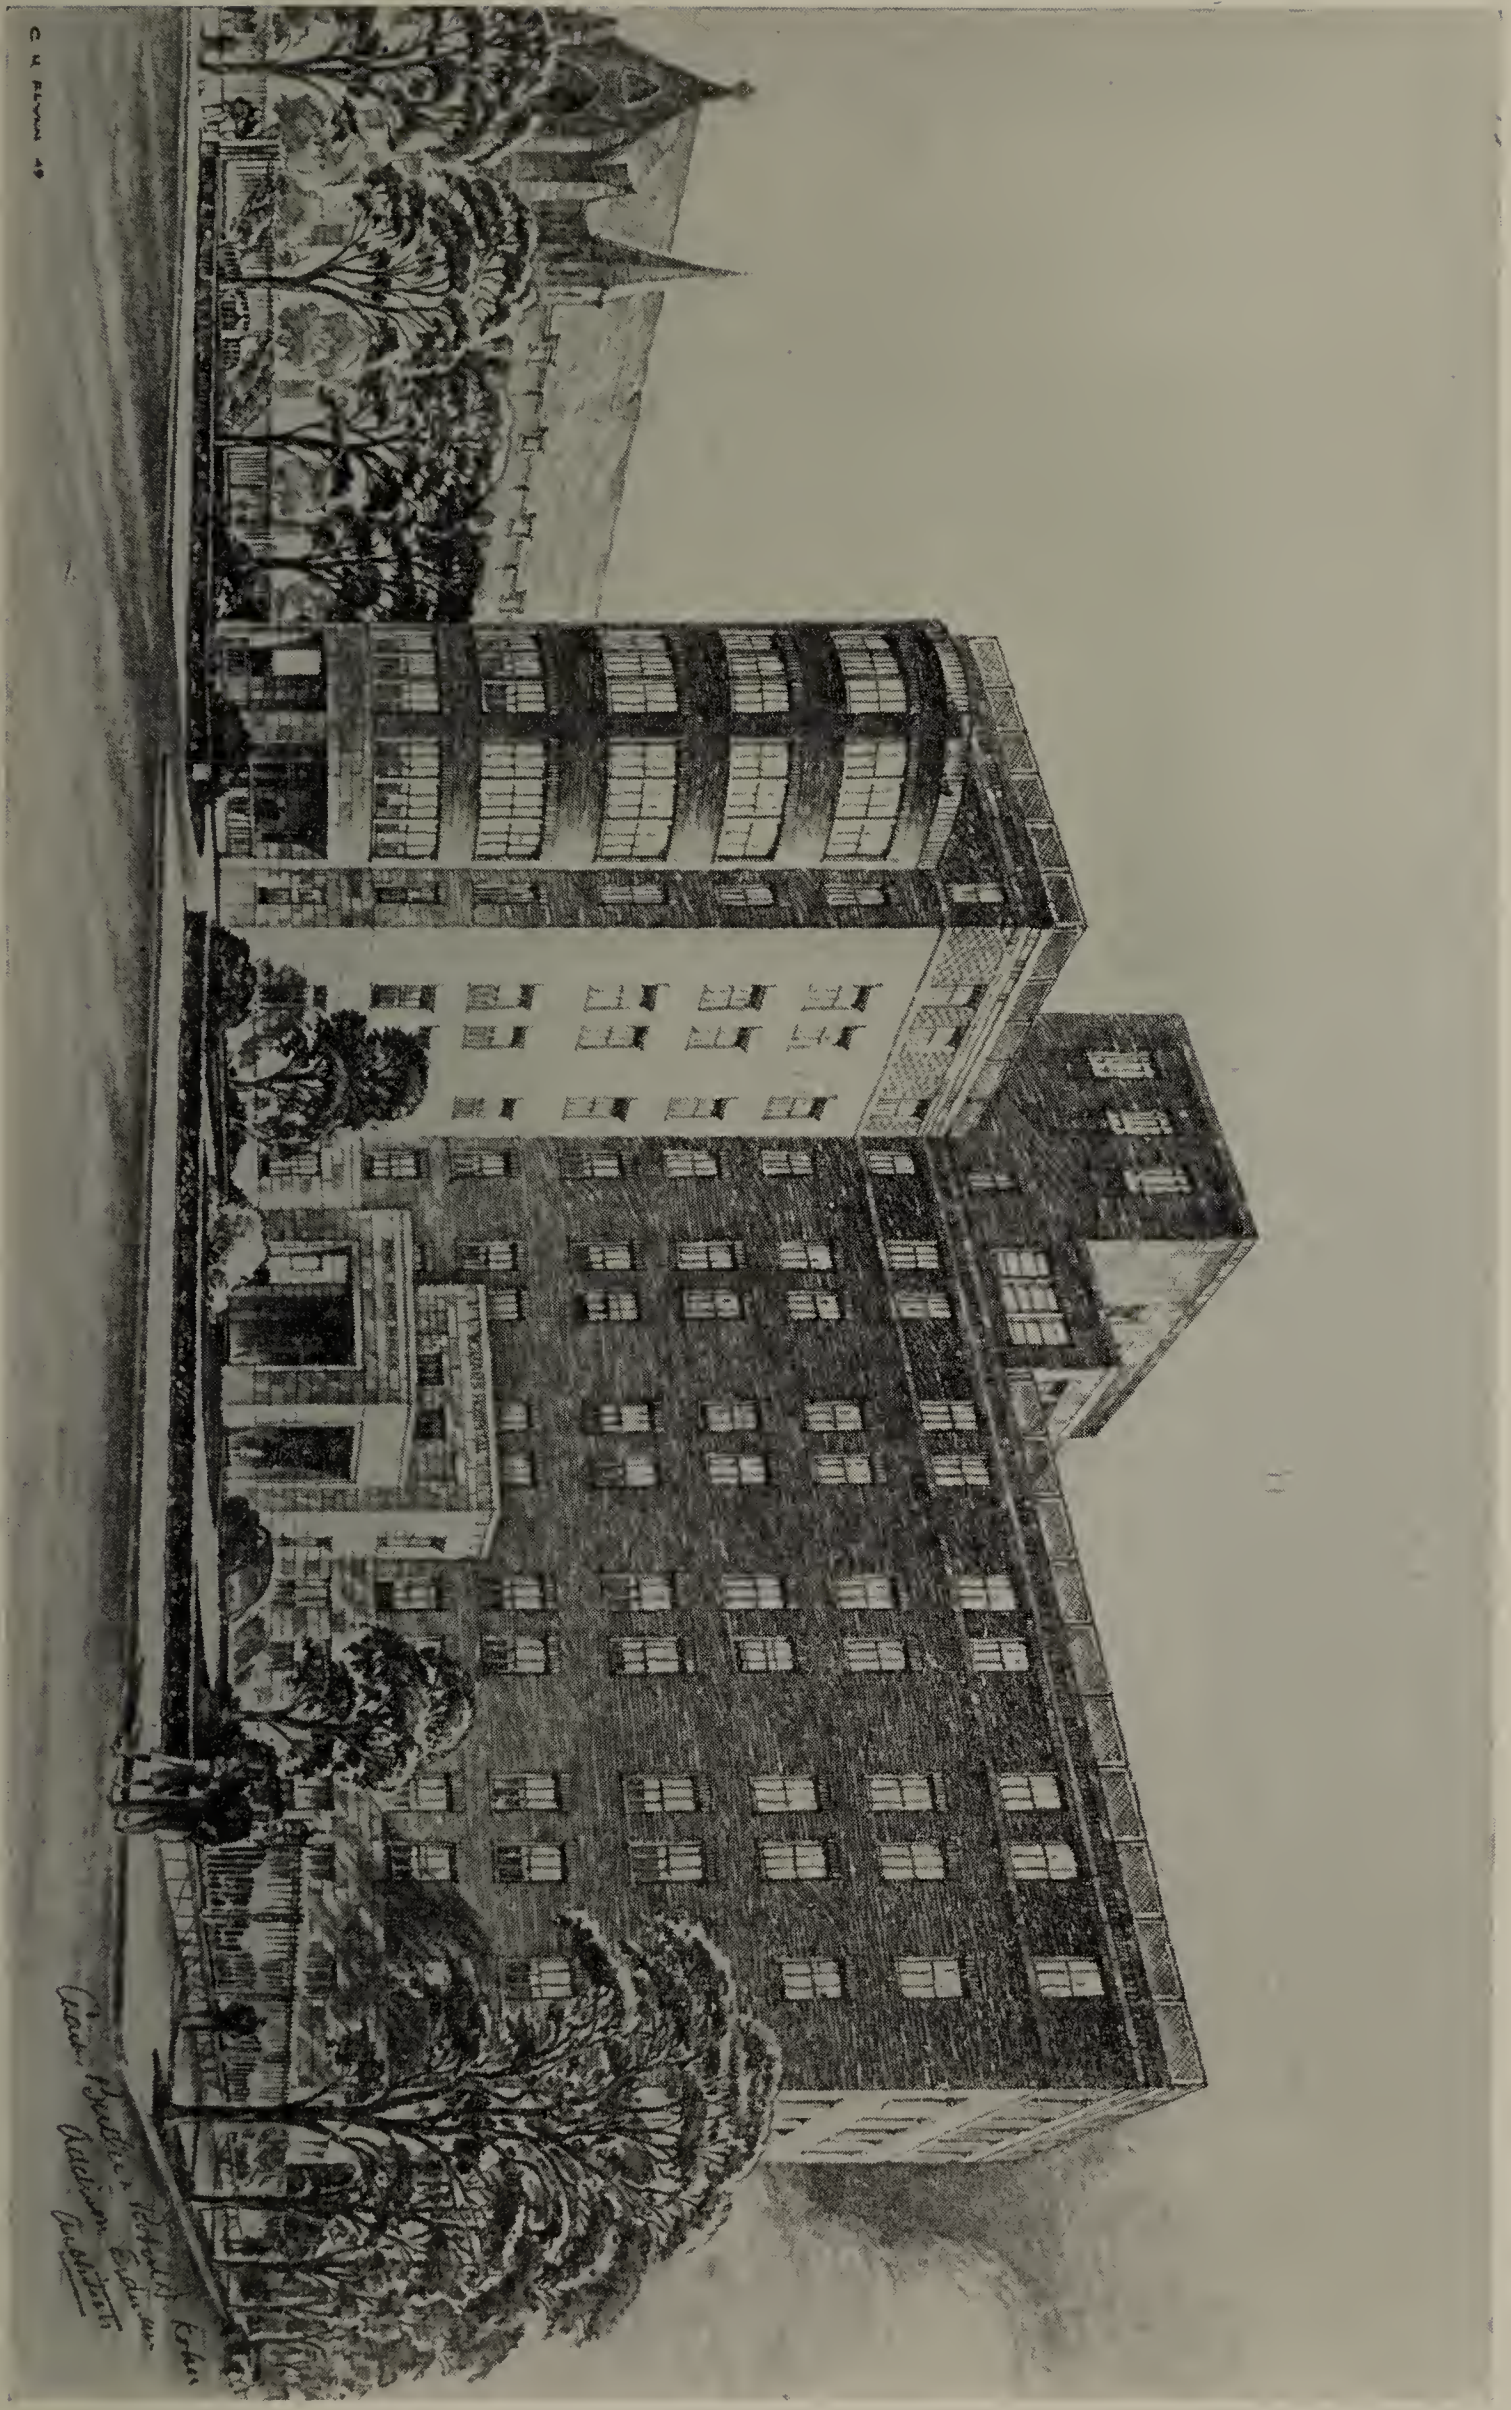

PAST

The WOMAN'S HOSPITAL was established on May 4, 1855 in a building at Madison Ave. and 29th Street 1855-1867.

WOMAN'S HOSPITAL 1867-1902

PROPOSED ADDITION TO WOMAN'S HOSPITAL

WOMAN'S HOSPITAL AND THE COMMUNITY

The photographs on the preceding pages illustrate progress and change and reflect the ever-advancing trends in the practice of medicine. Woman's Hospital in the State of New York has served its community in the specialties of obstetrics and gynecology during the past ninety-two years. The Surgical Staff has maintained a position of world leadership in these specialties, and has carried out the hopes and dreams of Dr. J. Marion Sims, the founder of the Hospital.

The Woman's Hospital was opened in a small building at Madison Avenue and 29th Street in 1855. Twelve years later, in 1867, a large hospital, which set the standard for hospitals of its day, was opened on a block of land at Park and Lexington Avenues between 49th and 50th Streets, the present site of the Waldorf Astoria Hotel. The present Hospital, which was opened in 1906, reflected the best architectural thinking of the early twentieth century, and when it was opened it was hailed as a remarkable achievement in hospital construction.

The present Hospital building has now served the community for forty-two years, and, until recently, few major alterations have been made. The Board of Governors, in keeping with the tradition of the Hospital, have, during the past two or three years, supported the fine work of the Surgical Staff by installing equipment which conforms with latest surgical and medical developments.

Further large expenditures are necessary to renovate and make possible the most economical operation of the Professional Service Departments, the Dietary Departments, the power plant, the electrical installations and plumbing. These alterations will provide a hospital for the practice of obstetrics and gynecology, which will continue to set the standard for these specialties.

Woman's Hospital Needs Your Support

—FOR—

1. A \$3,000,000 Expansion and Modernization Program
2. General Operating Expenses

SUGGESTIONS FOR DONORS

I hereby give to the "WOMAN'S HOSPITAL IN THE
STATE OF NEW YORK" incorporated by an Act of Legisla-
ture, passed April 18th, 1857, the sum of
Dollars to be applied to the expansion and modernization program.

I hereby give to the "WOMAN'S HOSPITAL IN THE
STATE OF NEW YORK" incorporated by an Act of Legisla-
ture, passed April 18th, 1857, the sum of
Dollars to be applied to its general operating expenses.

FORM OF BEQUEST

I give and bequeath to the "WOMAN'S HOSPITAL IN THE STATE OF NEW YORK," incorporated by an Act of the Legislature passed April 18th, 1857, the sum of to be applied to the uses and purposes of the said Corporation.

NOTE: For terms and conditions under which beds may be endowed see Article 31 of the By-Laws, copy of which will be sent upon request.

NINETY-SECOND ANNUAL REPORT OF THE BOARD OF GOVERNORS OF THE WOMAN'S HOSPITAL

The Board of Governors of the Woman's Hospital in the State of New York presents the following report regarding free care given by the Hospital for the year ending December 31, 1947:

	<i>Patients Treated</i>	<i>Days of Treatment</i>
Ward Service: Adults	2,487	23,809
Infants	1,250	11,192
	<hr/>	<hr/>
Total	3,737	35,001
Total Cost of Adult and Infant Ward Service		\$420,945.51
Income from Ward Patients		201,136.72
		<hr/>
Total Cost of Free Ward Care Rendered		\$219,808.79
or 52% of this service was FREE		
Out-Patient Department Visits	37,323	
Cost of Rendering OPD Service		\$91,312.35
Income from OPD Patients		43,326.18
		<hr/>
Cost of Free OPD Service		\$47,986.17
or 53% of this service was FREE		
Net Cost of Charitable Activities for the Year		\$267,794.96

The year 1947 was an eventful as well as a difficult year for the Hos-
pital.

During the war years, only as a result of devoted and overtime work on the part of our Surgical Staff and our depleted Nursing Staff, were we able to give excellent care to our patients. This year it was possible to staff our Hospital adequately, but the cost of so doing, plus the neces-
sary increase in wages, and the great increase in the cost of food and supplies, have meant that our expenses have exceeded our income, in-
cluding the many donations from our old and new friends, and in spite of an increase in our income from endowments.

The total current receipts from patients, contributions from friends of the Hospital, grants from the United Hospital Fund, Greater New York Fund, and income from investments amounted to \$1,044,123.21. The total expenses were \$1,111,714.48, with a resultant excess of current expenses over current revenue of \$67,591.27.

This statement clearly shows how essential were the donations of our friends to the Hospital during 1947. The Board gratefully acknowledges them, especially as this shows a continued interest in its welfare.

ANNUAL REPORT OF THE BOARD OF GOVERNORS

The Woman's Hospital has a nation-wide reputation as a teaching hospital for gynecology and obstetrics, and the care given to all of our patients is well known throughout the country.

We shall, with the backing of our friends, aid our fine Surgical Staff in maintaining and improving, if possible, this wonderful service by obtaining better and more advanced equipment as it becomes available.

To accomplish this, we must ask our many friends to contribute to the extent of their ability, both for maintenance and improvement of the Hospital plant, during the year 1948.

The greatest asset of any hospital is perfect teamwork of all those connected with it.

We are indeed grateful to Dr. Aldridge, the Chief Surgeon, and his Surgical Staff; to Dr. Klicka, the Director of the Hospital, and the Executive Staff; to Miss Witham, Director of Nursing, and her Nursing Staff; and to all of the employees of the Hospital who have made possible the fine co-ordination of all the activities of the Hospital during the past year.

The work done by our volunteers has been an inspiration to all of us.

As President of the Hospital, I should like to extend the Hospital's thanks to the Board of Governors and the Assistant Board for the vast amount of time and thought they have given during the past year.

We have active and working Boards, which are so essential to the welfare of the Hospital.

LIBRARY REPORT

The Patients' Library has had a busy year, with nine volunteers working 1,270 hours, supplying 5,302 patients and staff with 6,807 books and magazines. Many gifts of books, magazines and money were received from friends and patients who enjoyed the library service.

Respectfully submitted,

LORAIN B. COSDEN, *Chairman.*

COFFEE SHOP REPORT

The Coffee Shop has had a very active year, with business growing. Our three pleasant staff members serve a capacity crowd during the noon hour, and there are people coming and going all day.

During 1947, an average of over 3,000 persons a month enjoyed the Shop's hospitality.

Resident in Pediatrics: CATHERINE SPEARS, M.D.

The BABIES' ALUMNI continues to flourish and added 635 new members during the year.

The \$4,444.80 donated by the Alumni was a material aid in helping to defray the cost of maintaining the ward maternity service of the Hospital.

Members of the Alumni are showing a very active interest in the present drive for funds to pay for the new aluminum and plastic bassinets recently purchased and installed in the nurseries at a cost of \$5,700. On page 37 of this report is a list of the donors to the Bassinet Fund.

REPORT OF THE DIRECTOR

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the Report of the Director for 1947; a year characterized by a generous program of modernizing and refurnishing in many sections of the hospital, with the purpose of improving the quality of care rendered to our patients.

Early in the year, it was felt that the nurseries should be remodeled in line with some general recommendations of the New York City Health Department. Consequently, a moderately large room that previously had been used as a work room between the ward and semi-private nurseries, was partitioned in such a manner as to provide a nurses' office and two individual treatment rooms, one adjoining each nursery. This permitted a complete separation of the two nurseries, which is in entire accord with the recommendations of the Health Department.

The new program called for a revised technique of infant care, whereby a greater concentration was placed on individualizing the care of each infant. This new technique required the use of individual bassinets, each providing drawer space for a twenty-four hour supply of linen and a compartment for the infant's equipment, such as thermometer, oil bottle, cotton ball container, etc. After an exhaustive trial period of various types of bassinets, an aluminum model incorporating the use of lucite panels was selected. Ninety-one of these units were purchased and placed in use in the early fall.

In past years, premature infants were cared for in a room adjoining and attached to the main nursery. It was the impression of the staff that specialized care could better be assured if the premature infants were placed in a nursery separate and apart from the full term infants. Consequently, a double room with an adjoining office was set up on the 3rd floor, with a capacity for twelve premature infants, and this unit has functioned to our complete satisfaction since its opening last spring.

As materials became available, the semi-private accommodations on the surgical and obstetrical services were refurnished. Aluminum bars for curtain cubicles were installed, giving the rooms a much improved appearance. New beds, bedside tables, and overbed tables completed the alterations. New Type combination floor and bedside lamps, and new chairs, were installed in the private rooms.

REPORT OF THE DIRECTOR

As the nursing shortage eased, Ward C. was renovated, refurnished, and opened as a semi-private service, offering fifteen accommodations in bright, large, two and four bed rooms for surgical patients. This unit has proved to be quite popular with our patients, and has been greatly appreciated by the staff, inasmuch as they are now able to secure beds for their semi-private patients without a prolonged waiting period as has been customary during recent years.

Early in the spring, the fourth floor laboratory was completely renovated. The clinical pathological work of the Hospital is performed in this laboratory, a phase of the hospital service that must be as exacting as human abilities permit. The new furnishings will materially assist our technicians in the performance of their work.

A new operating room light and operating table were installed in the Thomas operating room. Both of these pieces of equipment have been appreciated by our Surgical Staff and represent the first step in the renovation program envisioned for the operating suite.

During 1947, 8,477 patients were admitted for treatment; 279 more than in 1946. Despite this increase in patients, the total patient days treatment decreased from 84,912 in 1946 to 79,148 in 1947. Early ambulation of both surgical and obstetrical patients accounted for this apparent paradoxical experience. Towards the end of the year, the pressure for beds gradually diminished and the swing back to a longer hospital stay slowly developed. Surgical and obstetrical patients will probably never again remain in hospitals as long as was customary prior to the war, but most of them are grateful that hospital occupancy has decreased sufficiently to permit a longer period of hospital convalescence than was possible during the crowded war and post-war years.

It is with sincere regret that we record the untimely and sudden death of Mr. Kenneth H. Gordon, the Assistant Director, on September 9th. His position was filled by Miss Mary Meehan, who was the 2nd Assistant Director at the time of his death.

I wish to express my appreciation for the faithful and efficient services rendered during the year by my assistants, department heads and personnel, and finally, I welcome the opportunity to acknowledge the generous assistance and wholehearted support which I have received from the Board of Governors and the Surgical Staff.

Respectfully submitted,

KARL S. KLICKA, M.D., *Director.*

Total Visits	37,323

Live Births totaled 2,854; there were 2,630 operations performed.

DURING THE YEAR OVER 2,000 DEEP X-RAY TREATMENTS WERE GIVEN TO
CANCER PATIENTS

REPORT OF THE CHIEF SURGEON

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the Annual Report of the Surgical Department for 1947.

The following is a summary of work done in the various departments of the hospital during the year.

There were 2,494 admissions to the ward and private gynecologic services. On our obstetric service 2,854 ward and private patients were delivered. There were 2,630 operations performed.

One hundred and forty-two patients were treated with radium, bringing the total number of patients treated since radium was made available in 1919, to 4,991.

Seven thousand, eight hundred and forty-six patients made 37,323 visits to our Out-Patient Department for examinations and treatments.

Of the patients referred to our Roentgenologic Department 1,639 were for diagnosis and 144 were for treatment. In the department, 3,842 diagnostic and therapeutic procedures were carried out.

The staff of our Anaesthesia Department administered 4,692 anesthetics to our gynecologic and obstetric patients.

In our hospital laboratories 55,826 examinations were made of clinical and surgical pathological specimens.

Through the personnel in charge of our Special Clinics, many Out-Patient Department and ward patients have had the benefit of expert advice as to diagnosis and treatment. Work in the Special Clinics may be summarized as follows:

	<i>New Cases</i>	<i>Total Visits</i>
Urology	183	1,213
Gastroenterology	51	235
Orthopedics	75	298
Endocrinology	119	685

Our Pediatric Staff has supervised the care and feeding of all newborn infants and has conducted our Pediatric Follow-up Clinics. During the year, 251 babies were brought back for 424 visits to these clinics. The work in our Pediatric Follow-up Clinic is limited to the care of babies who had unusual feeding problems or physical conditions requiring continued observation. Obstetric patients who have normal infants have been encouraged to take advantage of help provided by the Department of Health Baby Clinics.

During the past year, arrangements were completed for the Pediatric residents at St. Luke's Hospital to spend six months at this hospital for

REPORT OF THE CHIEF SURGEON

training and experience in the care and feeding of newborn infants. Through this affiliation, Dr. Catherine Spears served as Resident in Pediatrics from September 1, 1947 to December 31, 1947 and Dr. Lula Power began her assignment in the same capacity on January 1, 1948.

Four Follow-up Clinics are conducted every week. Members of the Attending and Resident Staffs in charge of patients who are treated, operated upon or delivered in the hospital wards, attend these clinics to check upon the results of their work. During 1947, 1,950 patients made 4,091 visits to our Gynecologic Follow-up Clinics and 1,033 of the patients who had been delivered made 1,529 visits to our Obstetric Follow-up Clinics.

In our Record Room, 34,351 clinical charts and abstracts were consulted for research and scientific work. End results of treatments of all patients have been audited by the Medical Statistician.

Clinics to demonstrate our methods for treatment of various gynecological and obstetrical conditions were held for:

The Virginia Obstetrical and Gynecological Society, April 29, 1947.

The Southern Interurban Gynecological Club, June 5, 1947.

The Clinical Congress of the American College of Surgeons on September 9 and 12, 1947.

The Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

During the past year our Surgical Staff has conducted examinations in obstetrics and gynecology on three occasions for candidates attempting to qualify for licenses to practice medicine with the National Board of Medical Examiners.

Changes occurring on our Surgical Staff during 1947 are:

Appointments:

Dr. William T. Kennedy, Consultant Surgeon

Dr. G. Gordon Bemis, Attending Surgeon

Dr. Joseph N. Nathanson, Associate Attending Surgeon

Dr. Thomas J. Parks, Assistant Attending Surgeon

Dr. Haig Carapetyan, Assistant Attending Surgeon

Dr. Richard R. Meredith, Assistant Attending Surgeon

Dr. Edward J. Sivigny, Assistant Attending Surgeon

Dr. Edward M. Winant, Assistant Orthopedist

Dr. Boris Petroff, Assistant Urologist

Dr. Norma J. Cummings, Clinical Assistant

Dr. June Hagedorn, Clinical Assistant

Dr. Michael S. Rapp, Clinical Assistant

Resignations:

Dr. William H. Berry, Associate Attending Surgeon

Dr. Osborne Christensen, Clinical Assistant

REPORT OF THE CHIEF SURGEON

RESEARCH AND SCIENTIFIC CONTRIBUTIONS

Dr. Aldridge:

Lectures given at the Second Annual Midwinter Assembly of Southern California, Los Angeles, California, February 10 to 15, 1947:

“Infections of the Pelvic Organs.”

“Treatment of Uterine Displacements — Retroversion and Prolapse.”

“Prevention and Treatment of Birth Injuries to the Pelvic Floor, Vaginal Walls and Cervix.”

“Treatment of Stress Incontinence of Urine and Urinary Fistulas.”

“Supravaginal versus Complete Abdominal Hysterectomy.”

“Management of Malignant Tumors of the Pelvic Organs.”

“Complete Abdominal Hysterectomy. A Report on Results of a Simplified Technique used in 500 Cases.” Paper read at a meeting of the New York Obstetrical Society, March 11, 1947.

Discussion of paper by Dr. Richard TeLinde, “The Surgical Care of Urinary Incontinence in Women.” Meeting of the Brooklyn Gynecological Society, April 11, 1947.

“Office Gynecology.” Given at a meeting of the Morris County Medical Society, Morristown, N. J. on March 20, 1947.

“Pelvic Infections.” Friday afternoon lecture at the New York Academy of Medicine, November 14, 1947.

Lectures given at the Post Graduate Medical Assembly of South Texas at Houston, Texas, December 1 to 3, 1947:

“Infections of the Pelvic Organs.”

“Cancer Symposium: The Diagnosis and Treatment of Carcinoma of the Cervix and Corpus.”

“Treatment of Uterine Displacements — Retroversion and Prolapse.”

“Supravaginal versus Complete Abdominal Hysterectomy.”

Radio broadcast, “The Importance of Prenatal Care.”

Dr. G. G. Ward:

“The Treatment of Carcinoma of the Cervix Complicated by Pregnancy.” Published in *Journal of The Mount Sinai Hospital*, Sept.-Oct., 1947, pp. 674.

“Audits Measure Our Results.” Published in *The Modern Hospital*, Vol. 69, No. 1, July, 1947. Read at the New York Academy of Medicine, April, 1947.

REPORT OF THE CHIEF SURGEON

"The Treatment of Carcinoma of the Cervix Complicated by Pregnancy." Published in *Acta Radiological*, Vol. XXVIII, 13: XI: 1947, pp. 576. (James Heyman Anniversary Number.)

Opened discussion on "Trends in the Treatment of Carcinoma of the Cervix," by Dr. Gray H. Twombly, at Section of Obstetrics and Gynecology Meeting at the New York Academy of Medicine, May 27, 1947.

Discussion on "The Treatment of Cervix Carcinoma with Radium and 800 Kilovolt X-ray," by Dr. Herbert E. Schmitz at the meeting of the American Gynecological Society, Montebello, Canada, June, 1947. Published in *American Journal of Obstetrics and Gynecology*, Vol. 55, No. 2, pp. 270, February, 1948.

Discussion on "Chloroform Anaesthesia—Sir James Young Simpson," by Dr. Benjamin P. Watson, before the New York Obstetrical Society.

Address of Tribute to Dr. Harry B. Slocum at the Testimonial Dinner given by the Staff of Monmouth Memorial Hospital, Long Branch, N. J., December 18, 1947.

Dr. Kennedy :

"The Rectum—During and After Labor." Read at a meeting of the New Jersey Obstetrical Society.

"The Urethra." Paper read at New Britain, Connecticut, February 20, 1947; at a meeting of the West Chester Obstetrical Society and at a meeting of the Gynecological Society of Buffalo, December 3, 1947, Buffalo Academy of Sciences, Buffalo, N. Y.

"Lecture on the Urethra" (with operation). Hartford Hospital, Hartford, Connecticut, April 12, 1947.

Dr. Bemis :

"Endocrine Studies in Management of Hydatidiform Mole and Chorionepithelioma." Read at a Clinic for the Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

Dr. Davies :

"Supports of Bladder, Rectum and Uterus. Damages Due to Child-birth." Paper read at a meeting of the Surgical Society of Milwaukee, Milwaukee, Wisconsin, May 5, 1947.

"Relation Between the Abdominal Wall and Pelvic Outlet." Paper read before the Student Body at Marquette University, Milwaukee, Wisconsin, May 6, 1947.

"Anatomy of Female Perineum. Principles in Plastic Surgery of the Vulva and Vagina." Given as part of a postgraduate course at

REPORT OF THE CHIEF SURGEON

George Washington University, Washington, D. C., February 27, 1947.

"Vulvitis Due to Stress Urinary Incontinence." Published in *The Urologic and Cutaneous Review*, Vol. 51, No. 11, pp. 635-642.

Dr. Sackett:

"Carcinoma of Vulva, Leukoplakia and Kraurosis." Paper read at the Obstetrical and Gynecological Panel of the American College of Surgeons at the Waldorf Astoria, September 12, 1947, and as part of the Clinic for the American College of Surgeons, at the Woman's Hospital, September 12, 1947.

Discussion "Postpartum Hemorrhage Due to Adenomyosis Interna Uteri." Given at a Clinic for the Virginia Obstetrical and Gynecological Society, April 29, 1947.

Dr. Marr:

"James Marion Sims (1813-1883)." Published in the *North Carolina Medical Journal*, August, 1947, pp. 447-449.

"Thumbnail Sketches of Imminent Physicians—Thomas A. Emmet (1828-1919)." Published in the *North Carolina Medical Journal*, September, 1947, pp. 593-595.

"Caesarean Sections." Paper read at a meeting of the Medical Society of Rutland, Vermont, November 4, 1947.

Dr. Motyloff:

"Abnormalities of Menstruation Due to Endocrine Dysfunction." Given at a Clinic for the Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

Discussion of paper "Ovarian Tumors," by Dr. Clayton T. Beecham, at the Academy of Medicine of Northern New Jersey, April 17, 1947, with Dr. Benjamin E. Cole.

"Viable Carcinoma of Corpus Uteri, post irradiation. (Critical Analysis of 100 cases with Emphasis on Histological Grouping)." Given at a Clinic for the American College of Surgeons at the Woman's Hospital, September 9, 1947.

Dr. Purnham:

Discussion of paper "Rh Factor in Obstetrics and Gynecology," by Dr. Philip Levine at a meeting of the New Jersey Medical Society, Atlantic City, N. J., April 23, 1947.

"Use of Endocrines for Prevention and Treatment of Abortion." Given at a Clinic for the Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

REPORT OF THE CHIEF SURGEON

Dr. Frost:

"Endometrial Biopsy and Other Diagnostic Procedures in Management of Endometriosis and other Cystic Conditions of the Ovaries." Read at a Clinic for the Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

"An Evaluation of Certain Factors Pertinent to Surgery of the Anterior Vaginal Wall." Published in the *Urologic and Cutaneous Review*, February, 1947.

Dr. Hill:

"Selection of Cases for the Surgical Treatment of Dysmenorrhea. (Resection of the Hypogastric Plexus.)" Read at a meeting of the Queens Borough Surgical Society, May 19, 1947.

Dr. Carapetyan:

"Endocrine Factors in Female Sterility." Read at a Clinic for the Twentieth Graduate Fortnight of the New York Academy of Medicine, October 17, 1947.

"Gynecological Problems in the Psysiology of Marriage." Lecture to the Faculty and Students of New York University, April, 1947.

Series of Lectures given at the New York Polyclinic Medical School, October and November, 1947:

"Prenatal Care."

"Toxemias of Pregnancy."

"Abruptio Placenta."

"Repair of the Perineal Floor and Anatomy of the Perineal Floor."

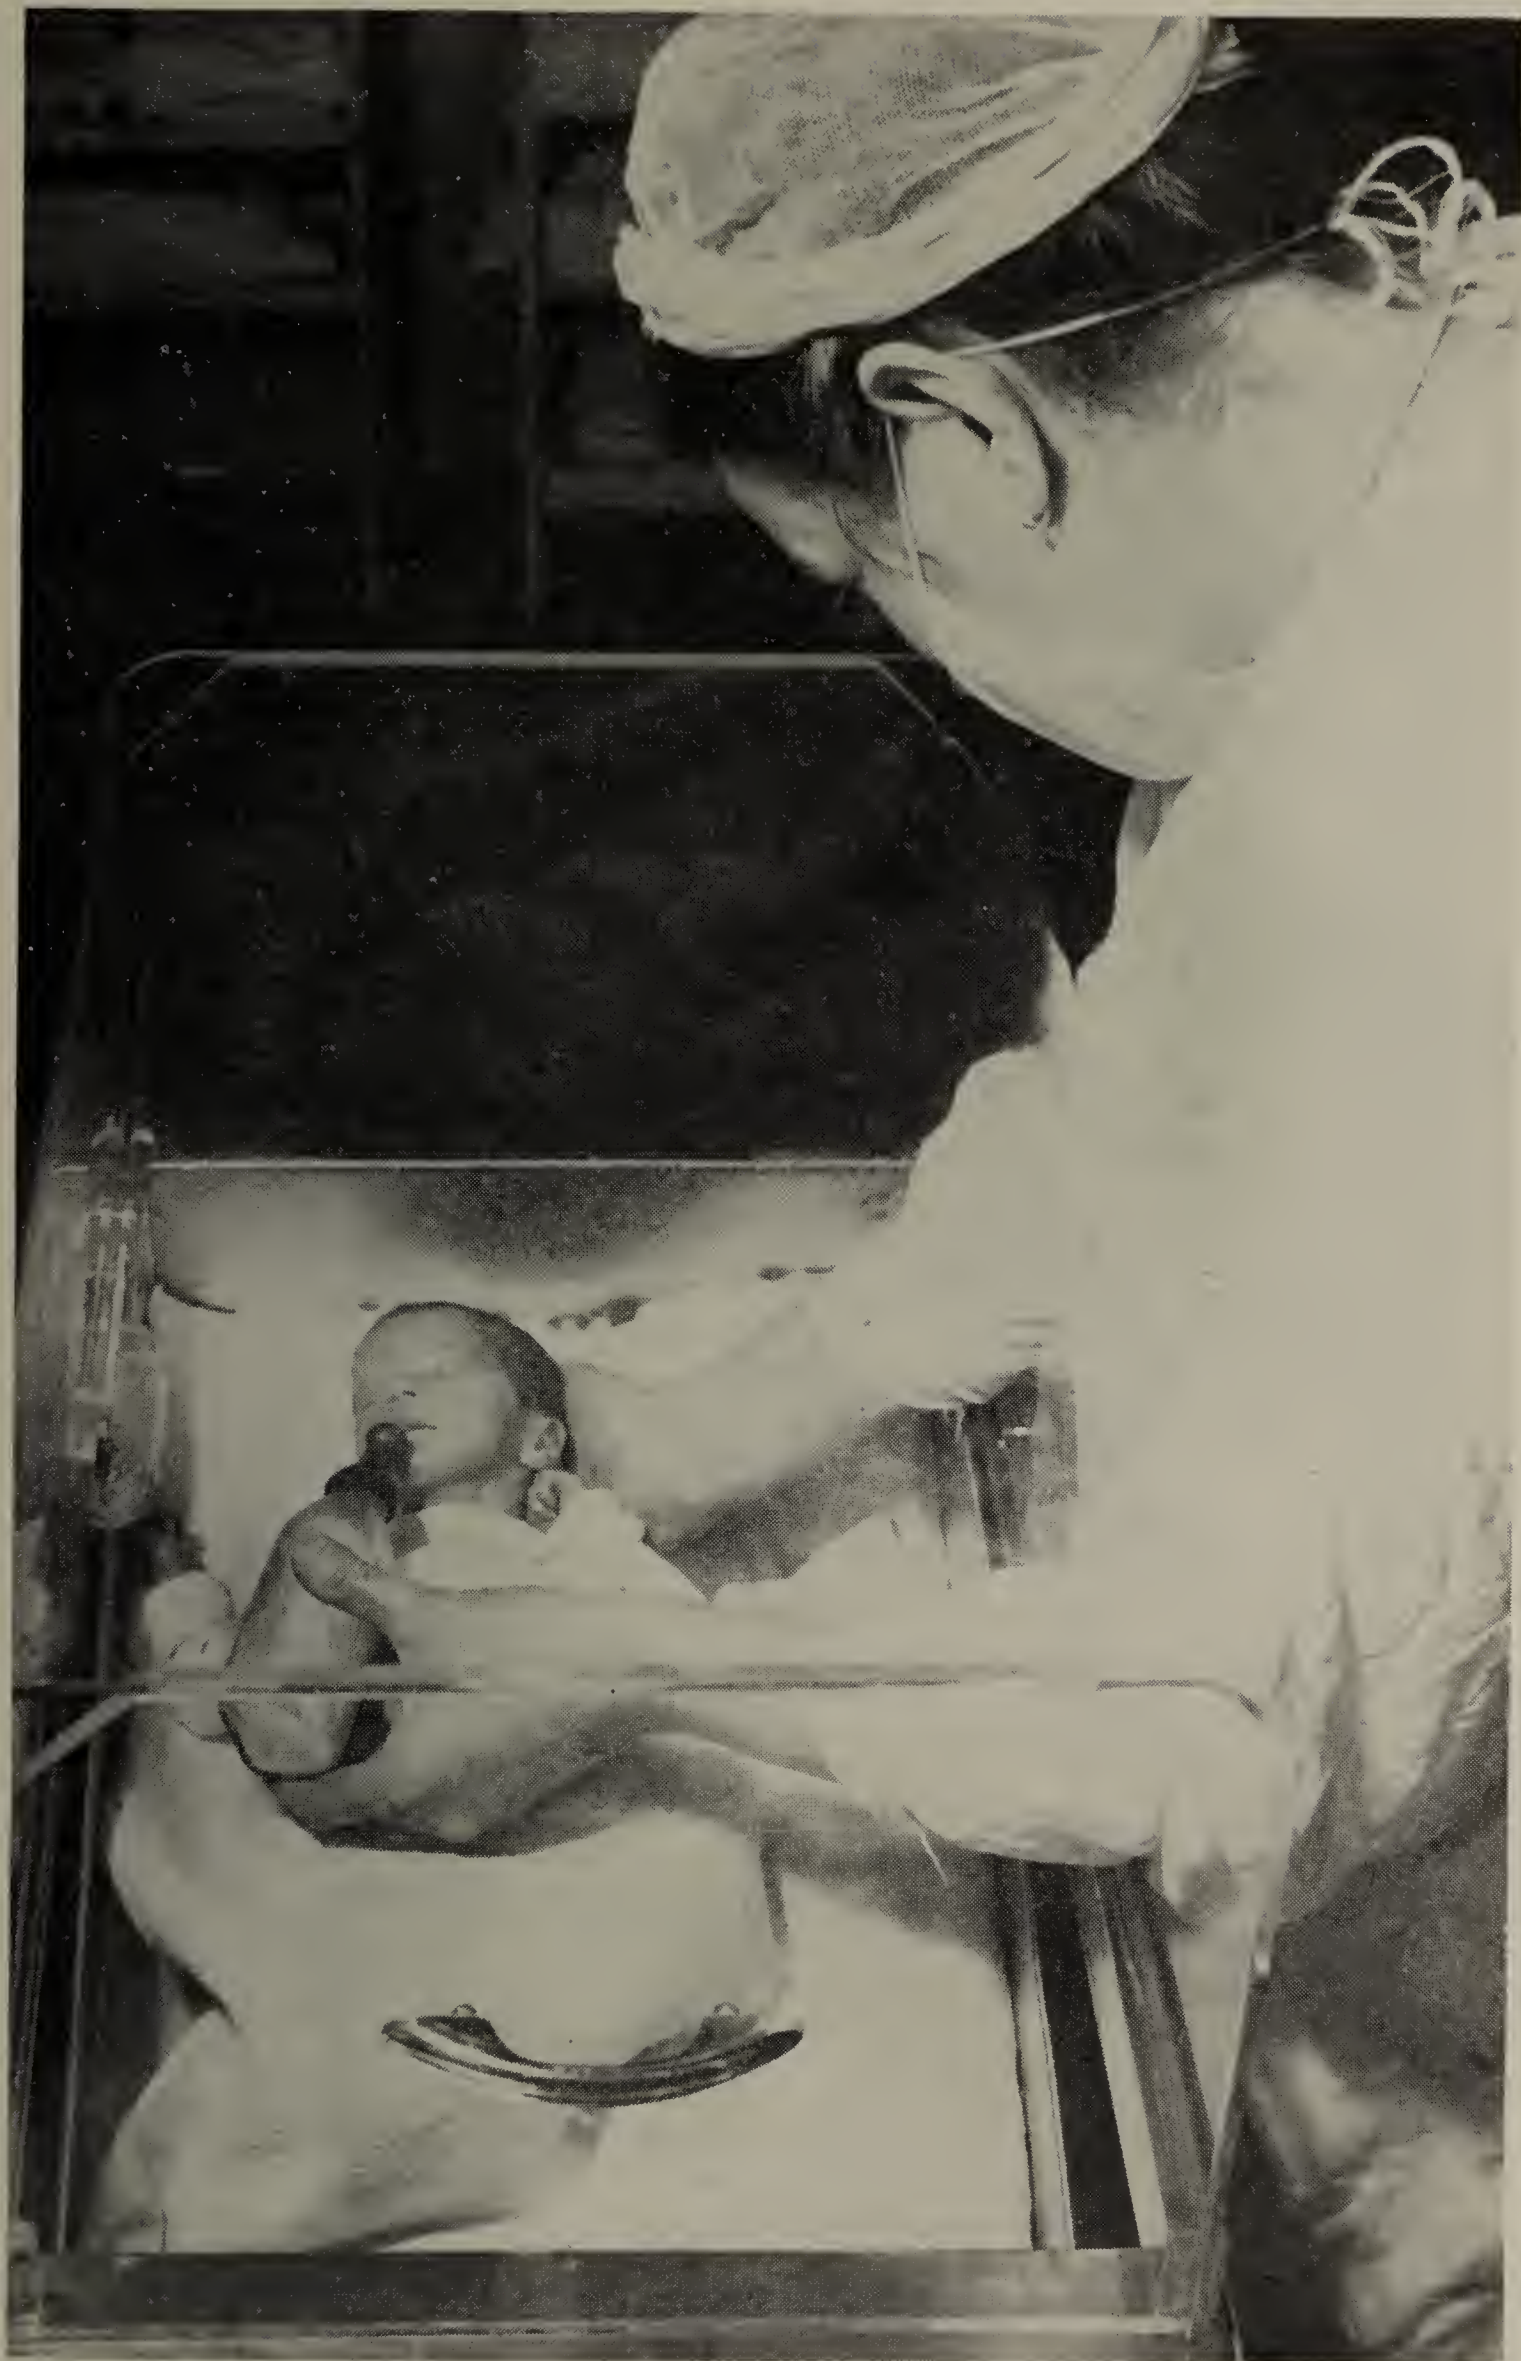

I wish to convey to the Board of Governors the appreciation of the Surgical Staff for its interest and generosity in helping us to provide necessary facilities for the care and comfort of our patients.

I am grateful to the Director and his Staff and the Nursing Department for their assistance and co-operation.

I also welcome this opportunity to acknowledge the wholehearted support which I have received from every member of the Surgical Staff, and especially from members of the Surgical Board.

Respectfully submitted,

ALBERT H. ALDRIDGE,
Chief Surgeon.

205 PREMATURE BABIES WERE CARED FOR IN THE 12 SPECIAL BASSINETS
AND INCUBATORS IN THE PREMATURE NURSERY

REPORT OF THE NURSING DEPARTMENT

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the Annual Report of the Nursing Department for the year 1947.

On the whole the general nursing picture showed improvement, particularly on the day shift. The afternoon and night duty tours of duty showed little change; acute shortages persisted there. In more instances than formerly, there were applicants of better quality, preparation and experience and we were able to be a little more selective in the employment of new personnel. The nurse turnover was still high with 87 appointees and 69 resignations but more key positions were filled for sustained periods than for comparable periods last year. With a budgetary allowance of 129 nurses, all nurse positions inclusive, the year ended with 111 posts filled.

During one of the early but few periods in the year when nurse applicants for employment were not materializing, it was decided for this, and for reasons of economy, to appoint practical nurses to nurse vacancies wherever possible. On reviewing results after some period, they were found disappointing. Applicants were, for the most part, not licensed; of evident limited intelligence and background and for other reasons not acceptable, particularly for assignment to private floors. We continued, however, to utilize opportunities to avail ourselves of other types of workers able to perform nursing care. Taking an average week early in October 1947, for example, we find supervision and nursing care in Woman's Hospital, excluding the Operating Room, Delivery Room, Out-Patient Department and Central Supply Room but including the Recovery Room and the Nurseries, was performed by the following:

5 Supervisors	3.3%	
12 Head Nurses	7.9%	58.2%
7 Assistant Head Nurses	4.6%	Registered
58 General Staff Nurses	38.4%	Nurses
6 Per Diem Nurses	4.0%	
6 Pupil Practical Nurses	4.0%	41.8% Practical
23 Practical Nurses	15.2%	Nurses and Other
13 Nursery Nurses	8.6%	Subsidiary Help
21 Nurses' Aides	14.0%	
<hr/> 151	<hr/> 100 %	

There were three major changes in personnel practices, (1) salary adjustments for nurses; (2) same holidays,—nine, as given to nurses also granted to nurses' aides with 2 or more years of satisfactory service (effective April 5th); (3) extensive plans formulated for redecoration

REPORT OF THE NURSING DEPARTMENT

of rooms in Nurses' Home and for the installation of a pantry. Actual work will be begun in 1948 and will be discussed in the 1948 report. On January 1, 1947, the salaries of all graduate nurses in all positions were increased \$20 per month. The schedule for staff duty nursing went into effect as follows: \$200.00 per month with an increment of \$5.00 at the end of six months and again at the end of the first year, with \$5.00 extra for nurses on evening or night duty. The increases were not to be automatic, but based on merit. Deductions for perquisites were to be set up as elected by each staff member. Room and laundry values remained at the same rate but meals were increased to \$35.00 (\$7.00 Breakfast; \$11.00 Lunch; and \$17.00 Dinner). Single meal rates went to \$.40 Breakfast; \$.50 Lunch; \$.75 Dinner.

The uniform worn by the pantry maids was changed to something more comfortable and modern. It is planned to outfit the ward helpers with the same type of uniform when their present ones wear out.

Several projects were undertaken to simplify procedures and work routines. Among the successful ones were (1) assignment of more responsibility to practical nurses, both graduate and pupils; (2) scrutiny of surgical and obstetrical procedures resulting in some modifications as to methods of sterilization, storing and distributing sterile goods; (3) elimination of repetition in charting on obstetrical charts; (4) revision of nurses' time slips for greater ease and usage; (5) substitution of a visible record system on all floors for the outmoded and non-standardized ward report books; (6) substitution of a visible record system in the Formula Room for the "formula book"; (7) institution of 3 eight-hour Ward Census and Patient Condition reports to the Nursing Office, with duplicates remaining on each floor, instead of 2 twelve-hour single reports to the Nursing Office only. Official time for reports changed to 8-4 P. M.; 4-12 midnight and 12-8 A. M. instead of 7 A. M.-7 P. M. and 7 P.M.-7 A. M.; (8) issuance of mimeographed forms to clinic for patient appointment dates, thus reducing number daily phone calls to clinic.

Changes in physical structure and procurement of new equipment tended to improve working conditions for personnel, as well as to make for greater all-around efficiency, as follows: (1) Tray carrier on H-S.P. reduced trips necessary over the ramp to and from the pantry at meal-time. (2) New floor lamps on private floors, not only welcomed by patients, but gave better light for treatments. (3) New overbed tables provided space needed by patient for flowers, books, tray, etc. instead of the bedside stand needed by nurses for treatment equipment. (4) Relocation of Recovery Room on sixth floor obviated moving beds between wards and old Recovery Room; saved nurses' time and energy. (5) Window cut in door leading to Formula Room permitted access to occupants without entry into room or interrupting work. (6) Rearrangement in structure of nursery units and purchase of individual bassinets permitted individual technique.

REPORT OF THE NURSING DEPARTMENT

The nursing staff was enlarged somewhat to care for additional nursing units added in the creation of a premature nursery and the re-opening of C-S.P. The re-opening of the latter made it necessary to offer more operating time in the operating room, which was done. Modernization of the nurseries and nursery techniques resulted in the use by selected Teachers' College students of the nurseries for field work. They were supervised in their clinical work here by a Teachers' College instructor. The appointment of a resident pediatrician on call facilitated greatly the work of the nurseries.

Another successful venture was the formation of certain standing committees among the supervisory and head nurse group for the purpose of group study and action on administrative problems. The committees formulated were on (1) nursing procedures and treatments, (2) efficiency records, (3) linen.

Through concerted effort, 12-hour duty was abolished for private duty nurses in favor of 8-hour duty. This achievement was very popular with the nurses, inasmuch, as they, particularly the Woman's Hospital alumnae, had been requesting it for a long time. Another accomplishment which was sorely needed was the provision of a room on Private L for special duty nurses.

In closing, the members of the nursing department wish to express their thanks to the Assistant Board for making the nurses' teas possible, and for their interest and support in the program for redecoration of the nurses' rooms. We are especially thankful to Mrs. Walbridge Taft, chairman of the Nursing Committee, for making herself accessible at all times for consultation and for her constructive suggestions and aid in all things. We all feel, more or less, gratification in being a part of an institution where, from the administration, chief surgeon's office, personnel physician and throughout the various departments the pervading spirit is one of co-operation and fair play.

My personal thanks is extended to my fellow workers in the nursing department for their reliability and efficiency in executing their duties.

Respectfully submitted,

EDNA N. WITHAM,

Director of Nursing.

THE RESIDENT PEDIATRIST EXAMINES AN INFANT IN THE
FOLLOW-UP PEDIATRIC CLINIC

REPORT OF THE SOCIAL SERVICE DEPARTMENT

TO THE BOARD OF GOVERNORS:

Ladies and Gentlemen:

I have the honor of presenting the report of the Social Service Department for the year 1947:

We have continued to place our emphasis in time and energy on case work service to the individual patient, with the hope that the patient will more advantageously use the skills and services our doctors and nurses are so able and willing to give them, and will then leave our hospital both physically and emotionally more able to continue their normal activities. These post-war years have not been easy ones for any of us. Continually rising prices, crowded and insufficient housing conditions, post-war adjustments of the veterans and their families, have intensified the problems of the sick person.

We have co-operated, as in the past, with the clinic in interviewing all new obstetrical patients and gynecological patients referred for operation. This has entailed many office interviews with patients and their families and telephone calls to community agencies, all working together in the rehabilitation of the patient. All ward patients have been visited daily, and semi-private and private patients when referred by the doctors. We have found an increasing number of semi-private patients who have needed our help. We have worked closely with our Follow-Up Clinics, have made home visits when time permitted, and arranged transportation either by taxi or through the service of the N. Y. Cancer Committee Field Army for chronically ill patients.

Convalescent care has been arranged for 93 patients, and 14 patients have been placed in terminal homes. The need for terminal homes for cancer patients far exceeds the supply and is a matter of concern to all who are trying to help families in working out such plans. Home care for these patients is equally difficult to arrange as homemaker service is seldom available for the cancer patient. This whole field of care represents a great unmet need in New York City. However, homemaker service for the patient with small children is more readily obtained and our department has helped finance its cost for many families who could not carry this financial burden alone.

With continued financial help from the Havens and Baird Funds, and many individuals, we have been able not only to supply homemaker service, but to give temporary financial relief, supply surgical garments, glasses, care for unusual dental needs, supplement or supply layettes, and to arrange temporary care for babies who could not return directly to their homes. Another unmet need in New York City as elsewhere, is the temporary home for the defective infant awaiting placement in a State Institution.

REPORT OF THE SOCIAL SERVICE DEPARTMENT

As usual we tried to make Christmas a little happier for chronically ill patients in their homes or institutions, through gifts of plants or money.

Total intake:	
Surgical patients, 1,371. Obstetrical Patients, 1,216.	
Interviews with:	
Surgical Patients, 3,679. Obstetrical Patients, 3,161.	
(Exclusive of routine daily visits to ward patients and telephone calls between worker and patients or family.)	
Social Workers visiting our Department in the interest of the patient	191
Telephone calls with inter-agency workers in the interest of the patients	2,305
Patients referred to convalescent and chronic homes	107
Patients referred to other social agencies	825

I wish to express appreciation to our Social Service Committee for their loyal support of our work. And to our Director, Dr. Klicka, our doctors, nurses and all hospital personnel, may we say thank you for your continued understanding that patients are people and need help with their individual problems.

Respectfully submitted,
ELIZABETH D. HASKELL,
Director, Social Service.

ONE OF THE NEW ALUMINUM AND PLASTIC BASSINETS RECENTLY
PURCHASED FOR OUR "CARRIAGE TRADE"

BASSINET DONORS

The Hospital acknowledges with gratitude the following donations of one or more bassinets to the Hospital Nurseries. When all subscriptions for bassinets have been received, these names will be inscribed on a scroll and placed beside the viewing window of the nursery. This list includes the names of all donors through May 12, 1948.

Anonymous, one bassinet
Bernstein, Mrs. Miriam Marcus, In Memory of Rose Marcus
Brownell, Mr. and Mrs. Louis M., Jr.
Bull, Mrs. Ludlow
